

The Oxalosis & Hyperoxaluria Foundation

June 2012

World meeting

[10th International PH Workshop brings out community](#)

Bonn, Germany - On June 22-23, the OHF community came together for the 10th International Primary Hyperoxaluria Workshop.

Doctors, scientists, drug companies, families & friends from around the world attended a 2-day intensive meeting dedicated to advancing Primary Hyperoxaluria research & awareness.

Below are some highlight from the workshop:

- Nibedita Saha of India emphasizes the importance of keeping her son's spirit alive to an audience of over 125 people.
- Dr. Gill Rumsby gave a brilliant talk on enzymatic and genetic diagnosis and genetic screening for PH1, PH2, and PH3.
- Drs. Dawn Milliner & Sally Hulton stressed the importance of having a Primary Hyperoxaluria Registry.
- Members of the scientific community reported on recent findings in various areas of Primary Hyperoxaluria.
- 2 leading experts receive life time achievement awards and are entered into the Primary Hyperoxaluria Hall of Fame.

Julie Olson (on left), Mayo Clinic Hyperoxaluria Center take a minute to pose with the Saha Family after their heartfelt talk.
